

FILTRATION SOLUTIONS

Complete Filtration Solutions Across Industrial Applications

We partner with customers to support lubrication best practices, supply filters and filtration systems, and deliver custom solutions. From lubrication storage to engineered filter skids, our goal is to extend equipment life across diverse industries.

Hydraulic, Lube & Oil Purification

- High-performance synthetic media filtration
- High-viscosity oil & lube filtration (up to 25,000 SUS)
- Desiccant & coalescing filters
- Gearbox & turbine oil filtration
- Duplex filter housings
- Magnetic filtration
- Automatic lubricators
- Portable filter carts, skids & flushing systems
- Varnish removal & vacuum dehydration
- Custom solutions & rentals available

Compressed Air, Gas & HVAC

- Coalescers & filters
- Air/oil separators
- Refrigeration & desiccant dryers
- Zero-loss condensate drains
- Hygrometers & air system service
- Medical & breathing air
- Nitrogen generators & sterile air
- Chillers
- Pleated, medium & high-efficiency filters
- HEPA & gas turbine filters
- Paint arrestor pads & rolls

Oil Mist, Weld Fume & Dust Collection

- Electronic mist filtration
- Gas & fume extraction
- Self-cleaning electrostatic cleaners
- Air purification systems

Parker Filter Build Program

Wainbee's Filter Build Program covers ~70% of hydraulic filter applications, offering hundreds of options for custom solutions.

Benefits at a Glance:

- Flexible inventory & common configurations (CS, CN, GLF, Moduflow™, PT & WPF)
- Faster lead times & lower assembly costs
- Eco-friendly designs with extended filter life
- Build Centre certified & inspected by PCD

Process & Water Filtration

- Self-cleaning filtration
- Single & multi bag housings
- Premium & heavy-duty filter bags
- Single & duplex baskets and screens
- Membrane cartridges
- Pipeline strainers
- Automatic backwash strainers & filters
- Machine tool coolant filtration
- Large vessels (up to 25,000 lbs)

Diesel Fuel Filtration

- Water & particulate removal
- Coalescing & absorbing filters
- Bulk diesel skids
- On-board diesel filtration
- Fuel & biofuel pretreatment products
- Custom solutions

Our Filtration Specialists work with globally recognized brands to provide customized Industrial and Process Filtration solutions. Supported by Application Specialists, our Technical Outside Sales Teams help determine the optimal level of filtration and design systems to ensure your plant's reliability and peace of mind.

WAINBEE'S CHOICE

Des-Case – Helps companies improve equipment reliability, boosting productivity and profitability by extending lubricant life. Their products prevent contamination using desiccant breathers, fluid handling solutions, and visual oil analysis equipment.

Domnick Hunter – Global leader in gas generation and filtration, offering Air Treatment and Nitrogen Generators, Desiccant & Refrigerated Dryers, Biogas Filtration, and Chillers.

Hydraulic Filtration – Innovative solutions for hydraulic systems, fluid conditioning, and condition monitoring.

Process Filtration – Bag & cartridge filters, capsule & membrane cartridges, and gas/liquid coalescers.

Racor – Leading manufacturer of fuel, oil, air, CCV, and CNG systems, plus aftermarket elements and kits for mobile equipment.
